

PORSCHE

The new Macan.

Dare Forward.

THE MACAN

Get out of your comfort zone.

No great story ever started inside your comfort zone, and this one doesn't either. Meet the new Porsche Macan. Built for the drivers who never back down from a challenge. The drivers who are ready, now, more than ever, to Dare Forward.

A benchmark in its own right, the Macan has remained the ultimate sports car among compact SUVs since 2014. And when outstanding driving dynamics meets day-to-day practicality with an elegant and sporty design, you will be ready for every journey.

**The new Macan.
Dare forward.**

EXTERIOR

Redesigned for perfection.
The most expressive Macan ever.

With a dynamic and powerful look, the Macan is ultimately a sports car at its heart but with the versatility of an SUV. The new Macan bears the distinctive Porsche design DNA reinterpreted for a new generation. The design of the front apron impresses with a completely new design element that provides a sporty emphasis on the width of the vehicle.

The Macan's sideblades have been redesigned with a new three-dimensional surface structure. Finally, in the newly designed rear section, the black diffuser area has been extended upwards, making the new Macan look even more dynamic.

INTERIOR

A sharper interior to enhance your sportscar fascination.

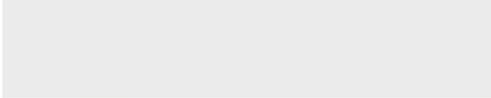

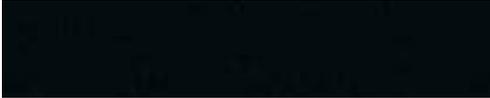

The new Macan perfectly integrates the driver into the vehicle with a three-dimensional arrangement of the controls. Ergonomically designed with a sleek glass finish, the Porsche Advanced Cockpit takes the ascending centre console to another level. With a larger 10.9-inch touchscreen display and touch-sensitive buttons, the interior has a more modern look and feel as well.

Keep your finger on the pulse of your dream sports car with your perfect steering wheel – the multifunction Sports Steering Wheel and the GT Sports Steering Wheel both allow manual gear changes via gearshift paddles for a sporty drive.

PERFORMANCE

The power and performance
of a true sports car.

Two engines are available for the new Macan models: a newly developed 2.0-litre inline four-cylinder engine with a turbocharger for the Macan and the familiar 2.9-litre V6 bi-turbo engine for the Macan S and Macan GTS.

The Macan's completely redeveloped engine follows a key Porsche principle: to extract maximum performance even in the smallest of spaces. The lightweight design not only delivers more performance, but also reduces emissions at the same time – thanks to efficiently controlled injection volumes.

The new all-wheel drive Macan is designed for maximum propulsion. In automatic mode, the standard 7-speed Porsche Doppelkupplung (PDK) enables extremely fast gear changes without interrupting traction so you can experience every thrill behind the wheel of your dream car.

CHASSIS

Live without limits and conquer every terrain.

The new Macan offers an enormous range of driving dynamics enabling your dream car to adapt perfectly to a wide variety of driving situations. The self-levelling function offers the option of three different levels so you're always ready for every journey.

The Sports Chrono Package with mode switch offers an even sportier set-up. This package features a newly designed steering wheel with mode switch which gives you the option of four driving modes – Normal, Sport, Sport Plus and customizable Individual Mode. Furthermore, the Launch Control function enables optimum acceleration from a standing start for a heart-racing driving experience.

Kick things up a notch with the Offroad Button for a traction-oriented off-road programme for an improved drive, no matter where adventure takes you.

PORSCHE CONNECT

Race into the digital era.

Porsche Connect makes everyday life easier with its intelligent services. Enjoy an outstanding traditional driving experience perfectly integrated into the digital world.

On the new Macan, Porsche Connect via My Porsche includes standard features such as Connect Plus, the Porsche Connect services, the Porsche Communication Management system and Apple® CarPlay with Siri® voice recognition.

ASSISTANCE SYSTEMS

Focus on the thrill of the drive.

With the Porsche Assistance Systems, you can experience the pure driving pleasure you expect from a Porsche without any distractions.

Self-Steering ParkAssist

Take the guesswork out of parking with the optional Self-Steering ParkAssist which not only actively measures and evaluates spots for their suitability, it'll also take on the job of steering during the parking process.

Reversing Camera and Surround View

Get eyes in the back of your head with the Reversing Camera for easier reversing. The Surround View offers four cameras in the front end, exterior mirrors and rear for a bird's eye view on every manoeuvre. These features are a part of the Premium package.

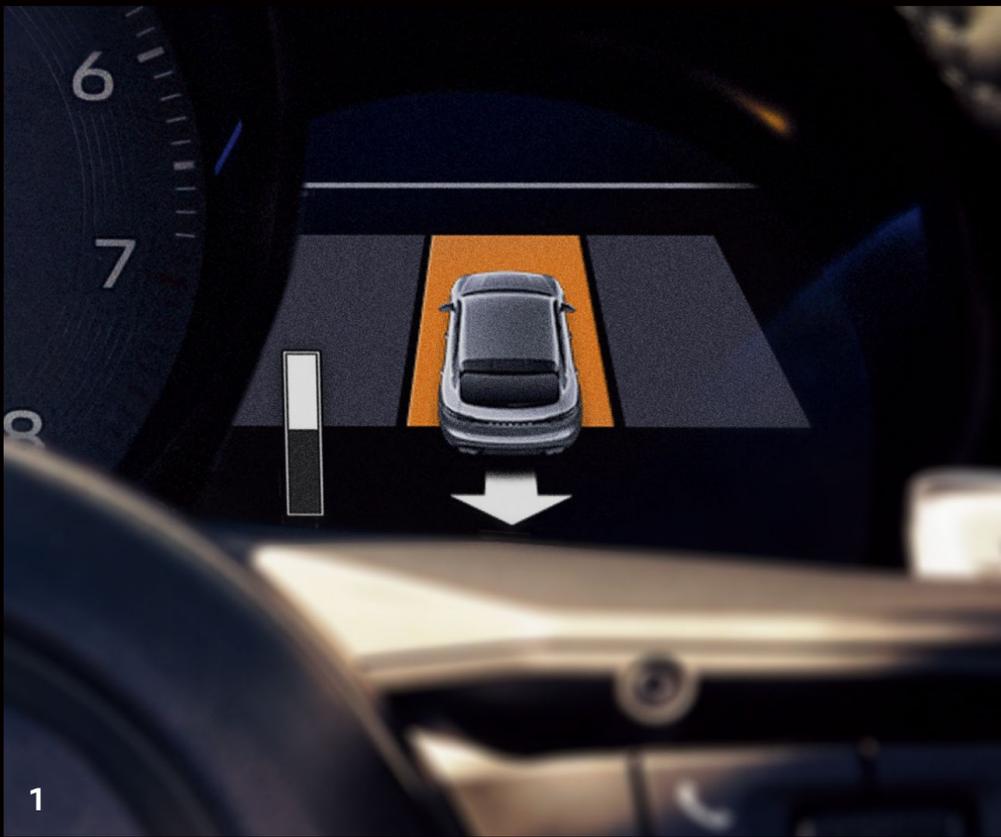

A man and a woman are standing next to a red sports car at night. The woman is on the left, smiling, and the man is on the right, looking at the car. The car is a Porsche Macan or Macan S. The background shows a stone wall and some foliage.

PREMIUM PACKAGE OPTIONS

Elevate your sportscar experience.

Exclusively available on the Macan and Macan S, enhance your dream car with Premium Package options including:

- Power Steering Plus
- Mechanical roll-up sunblind for rear side windows
- Porsche Entry & Drive
- Automatically dimming interior and exterior mirrors
- Reversing camera and Surround View
- Apple® CarPlay with Siri® voice recognition
- Porsche Active Suspension Management (PASM)
- BOSE® Surround Sound System
- Comfort seats in front (14-way, electric) with comfort memory package

-
- 1 Reversing camera and Surround View
 - 2 BOSE® Surround Sound System
 - 3 Power Steering Plus
